April																																
May																																
June																																

Total days this year _____ Total hours this year _____ Parent signature _____

Mark each day instruction took place. Attendance rules differ from state to state: check your own state's requirement, write it in the box above, and keep this sheet with your records rather than filing it anywhere.

Instruction Hours by Subject

Student _____				Month _____				Hours required _____	
Week									Total
Week 1									
Week 2									
Week 3									
Week 4									
Week 5									
Month total									

Write your own subjects across the top row, then log hours as you go. Totalling weekly is far easier than reconstructing a year in April.
